

- Position:** Computer Operator
- Purpose:** To operate ProPresenter software on an iMac computer, displaying worship song lyrics, videos, sermon slides, etc.
- Responsibilities:**
- Arrive by 7:30am on Sunday morning.
 - Run through the worship songs along with the worship band, to ensure all song lyrics are setup correctly in the proper order.
 - Check setlist order, videos, graphics, etc. for mistakes or changes in order.
 - Join together with the entire Service team at 8:40 to talk through the service and pray together.
 - Operate the computer during BOTH services (9am and 11am). This requires being at the computer during the entire service, alert and attentive.
 - While familiarity with ProPresenter software is not necessary, a competency with computers is required. A love of worship music and some sense of musical timing and rhythm are helpful for smooth operation during musical worship.
- Accountability:**
- This ministry falls under the leadership of the Technical Director.
 - Scheduling is done by the Technical Director. Depending on your individual availability, you may be scheduled once or twice per month, more or less depending on your specific needs.

Everything that appears on the screen is controlled by the Computer Operator. You make it possible for everyone to follow along with lyrics, sermon notes, and special videos. Are you ready to stay on your toes, and help make the service an accessible experience for all? This is the place for you!

Helping people follow Jesus as we authentically CONNECT, continually GROW and intentionally ENGAGE.
